

Lab 2

Make a folder including two html pages:

index.html

contact.html

The home page is called "Lab2"

A heading 2 "First Name, Last Name" (Use an imaginary character)

A heading 4 "Welcome to my webpage"

Place an image of your choice with 500 pixel width after the 2 headings.

Have proper alternative text for your image.

Put a link under your image called "See only the image" to open your image in another tab

Under the link, put a paragraph (dummy text or real text)

Below the paragraph, make an imaginary ordered list of steps to do something (like start a car, make coffee or tea,...)

Have a link under the list saying "Contact me", make this link open the other page (contact.html).

The contact page is called "contact".

In the contact page have a heading 4 "You can reach out to me"

Below the heading, put an unordered list of ways to contact your imaginary character such as: Email, Facebook, Instagram,...

Have a paragraph after your list (dummy or not)

After your paragraph, make a table of **3 of your courses** this semester and include these in the header of the table:

Course Name, Day, Hour, Teacher's Name

Have a link at the end of the page called "Home" to open up again the home page.
