

Introduction to Web Development

Assignment 1

Create an HTML file containing all that is explained below.
Make sure you follow the order as it is.

Title of the web page: Assignment 1

Add a comment in the head (the head of the HTML file) and add your first name and last name in it.

Heading 1 (the biggest heading): My first HTML class

Heading 3: HTML elements

Paragraph: (In your paragraph type in 2 or 3 sentences about HTML elements. You can search them up but write them in your own sentences)

In this paragraph:

- Make all the “HTML elements” words in italic
- Make “HTML” words in bold

It should look like this: ***HTML element***

Heading 3: HTML tags

Paragraph: (Type in two sentences about HTML tags, you can search it up but write them in your own sentences)

In this paragraph:

- Make all the “HTML tag” in italic
- Make “HTML” words in bold

It should look like this: ***HTML tag***

Hyperlink: Add a hyperlink called “Reference 1” and make it open one of the websites you used to search your material. Make it open the website in the same tab.

Hyperlink: Add in a hyperlink called “Reference 2” and make it open one of the websites you used to search your material. Make it open the website in another tab.

Save the file and submit it under Assignment 1

* Be careful! This assignment is going to be graded (Not on the content of the paragraph text)
