Introduction to Web Development   Lab 1

- Create an HTML file called: **index.html**

- Make the tab name on your browser call it: **My Lab 1**

- Add a big <u>heading</u> which says: **About me**

- Add a smaller <u>heading</u> which says: **A little introduction**

- Make a paragraph and insert a text with a few sentences about yourself. Whatever you like or even don't like!

- Use a line break in your paragraph

- Make your **name** bold.

- Choose one word in your paragraph and make it *italic*.

- Make a comment in front of your heading saying: "The purpose of this is only for the Lab 1"

- Create a hyperlink below your paragraph called **My School**. Make it open the **Lasalle College** webpage.
